AIR COOLER CATALOGUE 2026

Powered by
INFRA.MARKET

The Ultimate **Cooling** **Solution** for Every Space

The Amstrad 2026 Air Cooler range brings tailored refreshment to every environment. Experience the whisper-quiet intimacy of the **Alpine Master** for personal use, or tackle the most intense heat with the rugged power of the **Arctic Master** desert series. For larger-than-life requirements, our **Glacial Master** blends commercial-grade durability with high-volume airflow to keep businesses and large venues consistently comfortable. From your private desk to the busiest showroom, Amstrad Air Coolers provide a natural, energy-efficient breeze for every space and scale.

3-Sided Odour Free Honeycomb Pads

Designed to pull in more air **from every angle**. They deliver faster, superior cooling without the musty damp smell of traditional pads. They're durable, **anti-odour**, and built to keep your home feeling like a fresh retreat all summer long.

Ice Chamber

For those scorching afternoons when you need an extra blast of chill, our dedicated **Ice Chamber** is your best friend. Just pop in some ice cubes, and the cooler instantly transforms the air into a frosty, refrigerated breeze, perfect for turning a sweltering room into a cool sanctuary in minutes.

New Innovation - Glass Top

Elevate your home's aesthetic with our **Premium Glass Top Finish**. Beyond its sleek, modern look that fits any interior, the toughened glass surface is incredibly easy to clean and scratch-resistant. It doubles as a handy utility **tabletop**, adding a touch of elegance and durability to your cooling experience.

Auto-Swing Louvre

Say goodbye to stagnant hot spots. Our **Auto Swing Louvres** ensure that refreshing, chilled air reaches every corner of your room. With the flick of a switch, the internal blades move automatically from side to side, creating a wide-angle breeze that keeps everyone in the room cool and comfortable.

Water Level Indicator

No more guessing games with your cooling. Our **Water Level Indicator** lets you see exactly how much water is left at a single glance. It's a simple, stress-free way to know when it's time for a top-up, ensuring your cooler never runs dry and keeps performing at its best.

Rust Proof Body

Keep your cooler looking brand new for years with our Rust-Proof Body. Crafted from **high-grade, durable plastic**, it's built to withstand constant water exposure and humid weather without any corroding or staining. It's tough, easy to wipe clean, and stays vibrant season after season - **no maintenance, just pure cooling.**

Free-Wheeling Castors

Move your comfort wherever you need it with our **Free-Wheeling Castors**. These smooth-gliding, durable wheels make it effortless to roll your cooler from the living room to the bedroom, even when the tank is full. No heavy lifting, just easy, **360-degree portability** for a cool breeze in every corner.

Compatible with Home Inverter

Don't let power cuts ruin your sleep. Our air coolers are fully compatible with home inverters, ensuring you stay cool even when the lights go out. With energy-efficient motors designed for low power consumption, you get uninterrupted, powerful cooling that's light on your inverter and even lighter on your electricity bills.

Creating **Cool Moments** for **Your Family**

AM35CLPX4B

Litre	35
Dimensions (LxBxH)	490 x 375 x 860 mm
